

### REMARKS

The Applicant would like to thank Examiner Dwivedi for the analysis set forth in the Examination Report, and for noting allowable subject matter in Claims 10-15, 18-21, 26, 30-37, 40, and 41.

As this is a Final Office Action, the Applicant has merely performed amendments to place all claims in a condition for allowance. Subject matter the Examiner has indicated is allowable has been moved from Claim 11 into Claim 1 and the claim dependencies of Claims 7, 8, 10, 12-14, 16, 17, 20, and 21 adjusted accordingly. Subject matter the Examiner has indicated is allowable has been moved from Claim 33 into Claim 25 and the claim dependencies of Claims 29, 30, 34-37, 39 and 42 adjusted accordingly. Claims 6, 11, 28, and 33 are cancelled. Withdrawn Claims 4, 5, 16, 24 and 38 are also believed to be allowable as depending from an allowable independent claim.

The Applicant respectfully requests that the Examiner revisit the rejection of Claim 43, as Claim 43 contains subject matter from Claims 26 and 33, which the Examiner has indicated to be allowable.

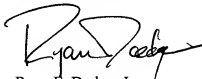

The Applicant does not understand one aspect of the Examiner's analysis. We agree with the Examiner that the speed of pigs of Guest are dependent upon the pressure with which compressed air source 100 forces pigs 12 through tube 14. It is not understood how the pigs can possibly go faster than the compressed air source as indicated by the Examiner.

It is believed that the above mentioned amendments place this patent application in condition for allowance.

Respectfully submitted,
